=> The Blue Economy

US\$3-5 B
Annually

Impact Investing $\neq$ Philanthropy/Grant

**Expectation
of financial
returns
important for
sustainability**

Impact investments perform as well as or better than traditional investments

Fund Year	IRR Impact Funds - emerging markets	IRR Traditional Funds - emerging markets	IRR Impact Funds < 100m	IRR Traditional Funds < 100m
1998-2001	17%	3.2%	7.6%	2.0%
2002-2004	10%	17.4%	15%	9.4%

Developing countries = fertile soil for impact investing
Opportunity for Island economies = natural candidate for impact investing for climate resilience

Flexibility of Impact Investing

Hurdles for the Caribbean: Deal size & impact magnitude

Hurdles for the Caribbean: Awareness
